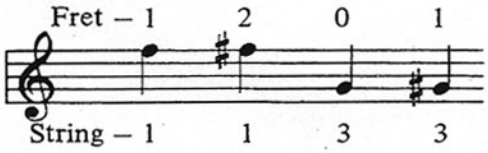
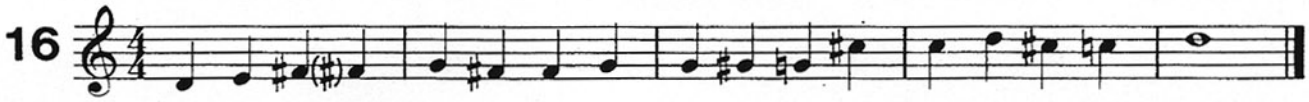
SHARP AND NATURAL SIGNS

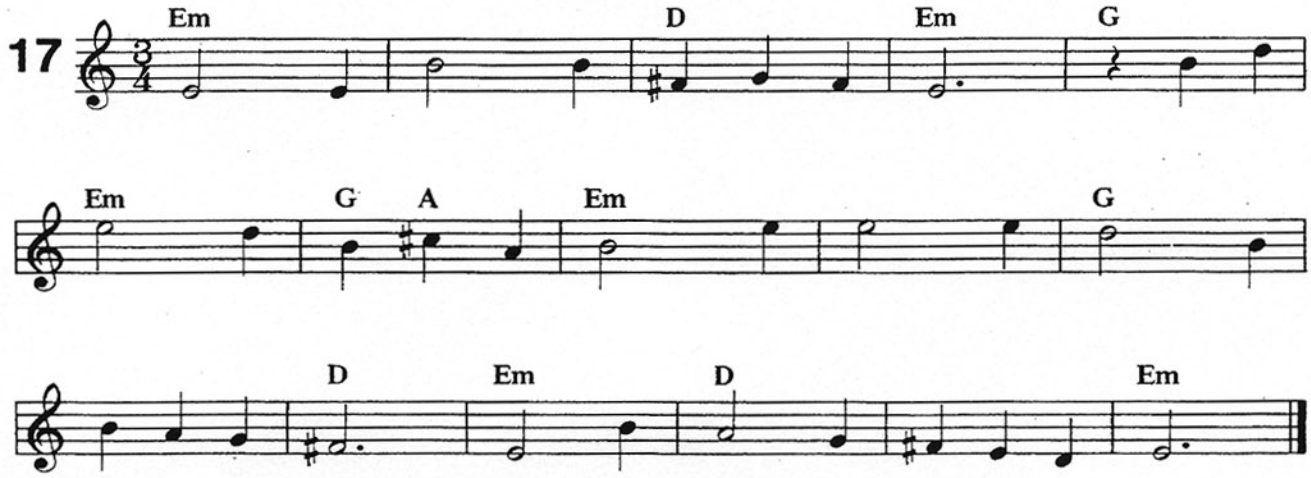
♯ This is a sharp sign. When it appears in front of a note, play that note one fret (or ½ step) higher (toward the body). If an open string is sharp, it is played in the first fret.



When a sharp sign appears, it will affect all of the notes with the same name in that measure unless a natural sign ♮ appears in front of the note. The natural sign cancels a previous sharp or flat.

Play the following containing sharps and natural signs.





Scarborough Fair *Trad.*
